INTRODUCTION

The 2004-2005 State of Nevada Correlation Directory has been developed to clarify the type of license and endorsement required for the placement of licensed personnel in fields of assignment at the elementary through secondary levels of education.

The types of licenses available for placement in teaching assignments are as follows:

1. **ADMINISTRATIVE ENDORSEMENT:** Program Administrators **can not** evaluate licensed personnel.
2. **ELEMENTARY:** Authorizes teaching kindergarten through eighth grade, except in the areas of Bilingual Education; Teaching English as a Second Language (TESL) and Computer Education.
3. **TEACHER OF ENGLISH AS A SECOND LANGUAGE (TESL):** An elementary teacher assigned to teach English as a Second Language (TESL) in language acquisition programs (i.e.; bilingual education, ESL, Inter-language CORE Migrant Programs, and Indo-Chinese Refugee Programs), must hold a TESL or Bilingual endorsement **with the base license at the appropriate grade level.**
4. **TEACHERS OF COMPUTER EDUCATION:** An elementary teacher assigned to teach computer education as a single subject one or more periods per day, must hold the appropriate computer endorsement **with the base license at the appropriate grade level** (i.e.; literacy, application, or programming). This requirement does not apply to elementary teachers of self-contained classrooms who may be utilizing the computer as a resource to their regular instructional program.
5. **SECONDARY:** Authorizes teaching at the middle, junior and senior high level (7-12) in a departmentalized setting. Teachers holding a secondary license are required to hold an endorsement for the area of their teaching assignment.
6. **SPECIAL:** Authorizes teaching of kindergarten through the twelfth grade. Teachers holding a special license are required to hold an endorsement for the area of their teaching assignment **with the base license at the appropriate grade level.**

SPECIAL NOTE:

- Teachers assigned to computer education courses must hold the appropriate computer endorsements (i.e., literacy, application, or programming) issued on a special license **with the base license at the appropriate grade level.** Occupational endorsements will not fulfill this licensing requirement.
- Coding for teachers assigned to foreign languages, music, physical education and reading at the elementary grade level will be found in the corresponding subject area (i.e., foreign language, music, physical education, reading).
- Teachers assigned to teach courses at the middle school level for high school credit, must hold a secondary license with the proper endorsement.

- *All additions/corrections are noted in bold & italics. Deletions will be noted as a strikethrough.*
